

# 题目总结

## 1) Interim presentation: max. 10min + 5min Q&A

- Focused on pre-market launch patent analysis (technology development)
  - Identification of existing technical solutions and who owns them
  - A patent-data based evaluation of the technical solutions you identified + clear reasoning for the preferred solution
  - Include an explanation of:
    - how you developed your search strategy
    - how you analysed the data
  - Short reflection of your experience and challenges you encountered and limitations of the patent search
- 
- pre-market launch patent analysis
    - 在管辖权内的
      - 过期
        - 过期专利
      - 没过期
        - 交叉许可合同，相互授权（有防火专利的entity）
    - 不在管辖权内的
      - 在专利管辖权外的国家的专利
    - 呈现方式（technology development）
      - 横轴时间
      - 纵轴好专利和数目
  - existing technical solutions and who owns them
    - technical solutions
      - 氢燃料防火技术解决方案
        - solution 1: containers
        - solution 2: materials
        - 3
    - who owns them
      - 氢燃料防火技术解决方案
      - 1
      - 2
      - 3
  - Patent-data based evaluation of technical solutions you identified and clear reasoning for preferred solution

- Patent-data based evaluation of technical solutions you identified
  - solution 1: containers
    - patent 1
    - patent 2
    - patent 3
  - solution 2: materials
    - patent 1
    - patent 2
    - patent 3
- clear reasoning for preferred solution
  - 争取选择1到2个
  - 漏斗
  - funnel
- 4: dequn explanation of
  - how develop search strategy
    - database
    - 
    - string
    -
  - how analysis data
    - lens
    - espatent
    - ?
    - time?
    - Domain?
- Short reflection of your experiences and challenges you have found, limitations of the patent search
  - reflections
  - challenges
  - Limitations
    - not considering
      - electrolyser
      - electrolyzer
